Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available. Level of certainty is provided when results are above screening levels.

Updates:

HW01 results for all expedited compounds have now been entered into the prelim report.
Additional ethylene glycol, methane and total coliform entries (all indicated as below trigger level) added to table.

Results at or above trigger levels (updated since 2/9/12):

Metals:

Sodium: Several samples have sodium results above trigger levels (HW34a, HW34a-P, HW39, HW39-P, HW40, HW40-P, HW41, and HW41-P).
